

MCI™ Odor Neutralizer

QUICK START

Congratulations on your purchase of the MCI™ Odor Neutralizer. The operation of this unit is intuitive with three options for the production of MCI™ technology. Left button turns on two lamps, right button turns on four lamps, both buttons turn on six lamps. There are three LED indicators to verify that the lamps are operational. These indicators are matched to each pair of lamps so replacement may only require two lamps at a time. To get the most out of your unit(s), please simply keep the replacement components clean and fresh. To order replacement parts, utilize the info here:
